TECHNICAL EXPERIENCE & PROJECTS

Full Stack Web Developer — EnaPragma **July 2025 – August 2025**
Architected and developed full-stack web application features for startup business client solutions.
- Engineered backend API routes and responsive frontend interfaces using modern JavaScript frameworks.
- Designed client-side UI components and integrated server-side database logic to streamline application workflow.

Quote Widget SaaS Application — Personal Project **2026**
Built a web-based full-stack Software-as-a-Service application using Next.js, Prisma, and PostgreSQL.
- Architected database schemas and server routes using Prisma ORM connected to a Neon PostgreSQL instance.
- Developed embeddable quote widget configurations leveraging Next.js App Router and Turbopack for optimized build performance.

iOS Cryptocurrency Application — Personal Project **2025**
Developed a native mobile application using Swift and SwiftUI with external REST API integration.
- Integrated CoinGecko REST API to parse and display real-time financial market data.
- Implemented CoreData persistence architecture for local data storage and offline client state management.

WORK EXPERIENCE

Server Assistant — KPOT Korean BBQ & Hot Pot **December 2025 – Present**
- Assisted service staff in high-volume dining environments, ensuring rapid order fulfillment and guest satisfaction.
- Maintained table turnover efficiency, dining room presentation, and clear team communication under high peak hours.

Grill Master — Liam's Sonic Drive-In **September 2025 – December 2025**
- Managed high-volume kitchen station operations, maintaining food preparation speed and strict safety standards.

Barista & Grill Master — iCrave Cafe **September 2025 – October 2025**
- Prepared food and specialty beverage orders in a fast-paced environment while executing daily POS operations.

Food Inventory Specialist — CostLess Outlet Store **January 2025 – June 2025**
- Managed inventory processing, stock reconciliation, and store receiving operations with high attention to detail.

EDUCATION & COMMUNITY SERVICE

Piedmont Technical College **Graduated**
Degree/Coursework in Computer Science & Information Technology

Community Volunteer — Local Library **150 Hours**
- Dedicated 150 hours supporting cataloging, public technology access, and library community initiatives.
